

Kiran Sharma

ML Engineer

Machine learning engineer with proven success in building successful algorithms and predictive models for different industries. Highly adept at clustering and classification, web scrapping, data analysis, and visualization.

A thriving analyst with the ability to apply ML techniques and algorithm development to solve real-world industry problems.

EMPLOYMENT HISTORY

Nov 2017 - **Machine Learning Engineer**

May 2021 *Stack Intellect, Bangalore*

- Used machine learning and statistical modeling techniques to develop and evaluate algorithms to improve performance, quality, data management and accuracy
- Worked with Adobe's research teams to take the state of the art in research and make great products and features
- Developed, simulated, tested, and improved algorithms for predicting electrical load and generation
- Designed lean proofs of concepts (POC) to answer targeted business questions. Explored and worked with a wide range of proprietary, interesting data stores. Applied existing methods or developed new methods.

May 2015 - **Machine Learning Engineer**

Oct 2017 *Network Corp, Bangalore*

- Consulted with managers to determine and refine machine learning objectives.
- Designed machine learning systems and self-running artificial intelligence (AI) software to automate predictive models.
- Turned unstructured data into useful information by auto-tagging images and text-to-speech conversions.
- Solved complex problems with multi-layered data sets, as well as optimized existing machine learning libraries and frameworks.
- Developed ML algorithms to analyze huge volumes of historical data to make predictions.

Certifications

Certificate in Advanced Data Science

COURSES

Jan 2013 - **Course in Python**

Jun 2013 *Coursera*

Sep 2013 - **Course in C++**

Feb 2014 *Coursera*
